

LEGAL INNOVATION ZONE STARTUPS

CITERIGHT

CiteRight, a tool that helps lawyers find, organize, cite and use legal research, is offering new customers two free months to help Canadian litigation teams collaborate effectively, paperlessly and remotely. [See their announcement](#) for details.

EVICHAT

Evichat helps law firms and organizations process evidence from their clients' mobile devices and the cloud - text messages and social media. Say goodbye to screenshots for good!

Founded

Founded is a legal platform that automates and manages the incorporation process, corporate maintenance, and legal workflows for a wide range of Canadian law firms, from national firms to sole practitioners. In addition to housing a company's digital minute book, Founded automates routine corporate legal tasks such as incorporations, corporate maintenance, share and equity management, and electronic signatures. [Learn more here.](#)

Legalbox

Legalboards is the first agile tool designed specifically for legal practitioners looking to streamline their daily work routine. This platform is centered around visual boards that: standardize repetitive workflows, enhance tasks chain automation, and create auto-assignments based on a matter's stage.

It combines the best of lean and agile methodologies to help corporate legal departments and law firms develop best practices in management, automation, and integration for fast-paced work environments.

[MinuteBox]

MinuteBox is a cloud-based entity management and minute book platform. There is nothing to install or maintain and data can be instantly migrated from a myriad of existing platforms - such as FastCo.

MinuteBox is providing free migration for professionals that need access to their minute books and corporate records from home. The service also allows clients to access their minute books and entity data without service interruption. MinuteBox is waiving all fees until June 1, 2020.

For more information, email info@minutebox.com or [visit this page.](#)

LEGAL INNOVATION ZONE STARTUPS

To help Canadian businesses and law firms stay up to date on quickly evolving legal changes due to the COVID-19 pandemic, Optimize Compliance is offering time-limited, free access to its compliance app. Optimize Compliance helps you build customized — cross-Canada — legal compliance reports that are updated in real-time. This offer is for HR, in-house legal and law firms with 10 or fewer lawyers. [Click here to sign up.](#)

Rally delivers an all-in-one document automation & client collaboration solution to business lawyers. We help lawyers attract and retain clients all while reducing errors and making more money on routine work. Through our document automation technology, lawyers can generate first drafts of transaction documents 90% faster than with traditional methods. All clients can be provided with access to a branded portal enabling them to seamlessly submit information, request new work, and more.

Vaultie lets you and your clients digitally sign documents using verified ID's tied to compliance grade facial recognition. Clients can verify their ID's from anywhere and sign digital documents that are verifiable by any third party with access to a smartphone. They are a secure tool for virtual commissioning in Ontario. Vaultie has announced they will be offering their Standard plan for FREE during the COVID outbreak.

VESTA Social Innovation Technologies lives at the intersection between gender based violence, access to justice and technology. It is a social enterprise changing how those who have experienced sexual misconduct seek and access justice. In collaboration with community agencies, we are launching VESTA Community; a web and mobile enabled application that allows survivors of sexual assault to access resources, document their experience and anonymously report to the police.

Visto is a free platform guiding skilled workers and international students through the Canadian permanent residency process. We also help newcomers find jobs and settle in Canada, in an effort to make the entire immigration journey as seamless and affordable as possible.
